City of Bellevue/Steve Leighton – not present

City of Seattle/Dave Rankin

The new electrical code has been reviewed and approved and the goal is for final adoption in October/November.

There are five open inspector positions – two candidates have been approved for hire.

Working to balance between what state and city require regarding EV charger loads.

The over-the-counter permit system is difficult to use so the city is working to make the process easier.

The city is seeing a down cycle in permits – not as slow as 2008 but definitely a downturn.

SCL wants ADUs and DADUs are now required to have their own meter, but that is causing difficulties because properties only have one dwelling permit.

Snohomish PUD/Rob Marks

SnoPUD is looking to expand building efficiency projects. They are marketing these programs via face-to-face contact with key account managers and customers.

IEEE/Cameron Clark

The 2024 IEEE Power & Energy Society General Meeting will be held 21–25 July 2024 in Seattle, Washington. This premier power engineering conference will bring together practicing power engineers and academics from all over the world. The aim of the conference is to provide an international forum for experts to promote, share, and discuss various issues and developments in the field of electrical power engineering. Volunteers are needed to facilitate this event.
