

## **Codes and Standards Meeting Minutes**

**January 14, 2026**

Brook Walker  
Cameron Clark  
Tim Quiring

Steve Gale  
Dave Rankin  
Dan Steinert

Mike Bearda  
Michael Case

**State of Washington L&I/ Dennis Straley** – Not present

### **City of Bellevue/Mike Bearda**

Plan review and inspections have slowed, though the expectation is that they will pick up later this year. There was a big push at the end of 2025 on PV, but that has tapered off now that incentives are over.

### **City of Seattle/Dave Rankin**

The City has rolled out the online Trades and Construction permit process. The a la carte system has been replaced with a system focusing on circuits. A few glitches have been corrected, and the system should be an improvement for end users.

The City is working with Seattle Fire to bring their permits together. Fire Alarm Permits are now associated with Electrical Permits so they can be accessed and viewed in the same place.

### **IEEE/Cameron Clark**

Bullitt Center Tour on January 15 and Electrical Safety Workshop on March 9 – March 13.

**UL/Chris Jensen** – Not present

### **ELPN/Brook Walker**

Seattle Public Schools/IGNITE field trip at McKinstry on February 12 (introducing young women interested in STEM to career opportunities in the electrical industry).

Electric League Member Happy Hours:

March – Pure Energy

June – PLS

September – Berg Electric

December – WESCO

Golf Classic – Thursday, August 20 at Harbor Pointe Golf Course

Next meeting – Wednesday, February 11

Adjourn 8:28 AM
